Dragon War!

For thousands of years, the Dragon Tribe reigned peacefully, governing the world through its mighty power and decency. Despite its integrity, the tribe fell victim to the power of the evil goddess Milia. The internal strife split the tribe into two factions and war erupted between them. The violent clash nearly destroyed the world. Already lasting for centuries, it seemed the conflict would drag on forever. At last, a hero and his seven companions appeared and vowed to defeat the evil goddess. The quest was perilous. After many failed attempts, they managed to capture the goddess and seal her in a dungeon locked with six keys.

Now a fragile peace accord holds the two tribes together. The White Dragon Tribe, pledges to lock away its power until the world is once again faced with danger.

But the Black Dragon Tribe is suspiciously reluctant in its peace efforts. Will the peace hold, or will the bloody history between these two sides continue for more eons to come?

The saga of the fate of the Dragon Tribe is about to begin...

Characters

RYU

Warrior of the White Dragon Tribe

Ryu is a descendant of the White Dragon Tribe and has the ability to transform into a dragon. The tribe has sealed its power after almost destroying the world in the Goddess War of several thousand years ago. However, it is allowed to use it when the world is in danger in order to save it. Ryu lost his parents when he was young and now lives with his sister, a shaman who can summon powerful magic. Ryu’s hobby is fishing.

Personal Action - Fishing

To fish, equip a fishing rod and bait in the Sub Screen. Try to find places where you can fish (press the A Button). Any fish you catch can be used as an item.

NINA

Daughter of the Fae Tribe

Nina is from the Fae tribe. She can turn into a gigantic bird and fly through the air with people on her back. The Fae tribe abhors fighting, and its people hid themselves in a remote mountain during the Goddess War. Because of their seclusion, their ancient traditions remain intact. Nina learned the ancient ways when she was young, and now she is a master in the use of healing magic.

Personal Action - Gigantic Bird Transformation

Nina can transform into a gigantic bird and fly into the sky with others on her back. This allows the group to access places they can’t reach on foot. To transform and fly, press the A Button.
BLEU
Beautiful Arch Mage
Bound in a spell, Bleu has been asleep in an ancient ruin protected by the faeries. No one knows how long she has been there, though the legend of a sleeping arch mage has been told among the tribes for many years. Out of practice for so long, Bleu has forgotten most of her magic, and she makes a lot of mistakes as she attempts to remember it all.

Personal Action - None
Bleu does not possess a personal action.

GOBI
Sea Merchant
Gobi is from a tribe of traders who boast that they will one day control the world's commerce. Their trade area is any place that touches the sea. They are notorious for their greed, and Gobi is especially greedy—his own tribesmen shun him and he has been expelled by the tribal leader. Because of this, his ability to transform into a huge fish is sealed and his life of commerce is very limited. However, Gobi still hasn’t learned his lesson.

Personal Action - Gigantic Fish Transformation
Gobi can transform into a gigantic fish (press the A Button) and swim in the sea if he gets a certain item.

MOGU
Warrior of the Earth-Eating Tribe
Mogu’s tribe built its world underground and lives there quietly. None of the tribe have ever appeared on the front lines of history, but their ability to dig several thousand feet a day is known throughout the land. They are small but powerful, and can wear heavy equipment. Mogu is silent and shy, but he has a strong sense of responsibility. When he fights, he proves himself to be an incredibly brave warrior.

Personal Action - Digging
As Mogu, if you see a mound of earth on the field, or a dragon mark, try his personal action to dig a hole (press the A Button). You may discover something new.

OX
Warrior of the Creation Tribe
Warriors of the Creation Tribe are immense and powerful. They trace their mastery at creating weapons and armour back to ancient times. They are also skilled at breaking apart walls and hard rock. Despite their size, they are capable of delicate and subtle work. Ox once made a beautiful golden hair ornament for his wife. They are best at crafting weapons, but since they oppose war, they rarely use this talent.

Personal Action - Strike
When Ox finds a suspicious rock, tree or wall, try his personal action (press the A Button). Ox may be able to break the object with his massive power and open a new path.
KARN
Scion of the Tribe of Thieves

As a tiny child, Karn was found in the Town of Darkness by the leader of a guild of thieves. He knows nothing about his parents or his hometown. Karn is not interested in his past, however, he is dedicated to acquiring the best thieving techniques. Karn is always practicing his craft. The guild leader wonders when he should tell Karn the truth about his beginnings.

Personal Action - Unlocking / Disarming Traps
When Karn is stuck at a locked door or a dangerous trap in a dungeon, try his personal action (press the A Button).

BO
Forest Hunter

The Hunting tribe lives in the forest and revere nature. This tribe is so familiar with the forests that you will never get lost when Bo is leading the group. Bo is cool-headed, reliable and very good at hunting with a bow. In battles against the Black Dragon Tribe, Bo led his tribe to multiple victories. However, the Hunters were soon outnumbered and had to retreat to their home in the southern forest.

Personal Action - Hunting
When a wild boar or deer appears, try hunting the animal (press the A Button). Any animal Bo catches can be used as an item.

START MENU Options
Press START in the Title Screen to view the Start Menu with the following options. Select with the Control Pad, and press the A Button to confirm.

- New Game - Start a new game.
- Create Save File - Input your main character’s name and create a save file to preserve your game data.
- Copy Save File - Copy a save file (available after you create a save file).
ENDING THE GAME

When you end the game, be sure to save it to preserve your progress. There are two ways to save your game:

- Save in a Save File - Talk to the god of the Dragons in a Dragon Shrine. Make sure that your game is saved before turning off the power. (You may also find the god of the Dragons in other places besides Dragon Shrines.)

- Save in a Suspend File - To suspend the game temporarily, select Suspend in the Sub Screen. Select Yes to save your game in a Suspend File. You can only suspend your game where you can display the Sub Screen. When you restart a suspended game, the Suspend File is deleted.

EXPLORATION

Exploration takes place on the Field Screen. With your companions, travel to all the familiar and foreign places you find on the World Map. Check out unusual places and landmarks, and take the time to strike up conversations. Use your curiosity and be sure to talk to everyone you meet. Information is one of your most important tools.

TOWNS

Towns are inhabited areas. They contain inns, weapon shops, item shops, banks and Dragon Shrines.

- Inn - When you rest at an inn, your characters' HP (hit points) and AP (ability points) recover fully. Unhealthy conditions such as unconsciousness and poison are cured. You usually (but not always) have to pay Zenny (money) to stay at an inn. Search for other places besides inns where you can recover HP and AP.

- Weapon Shop - Weapons and armour are sold in a weapon shop. Select from Buy, Sell, Trade-In and Exit. By selecting Trade-In, you can turn in an item you already own in exchange for a new one. Trade-in and selling prices are the same. When you trade-in, the new item is automatically equipped.

- Item Shop - Useful items for your adventure are sold in an item shop. Select from Buy, Sell and Exit.

- Bank - Banks are safe places for storing extra items and Zenny (money). You can store up to 128 items and up to 999,999 Zenny in a bank.

- Dragon Shrine - Dragon Shrines are important places where you can save your game data. Every town has a Dragon Shrine. When you enter a new town, or level up, be sure to talk to the god of the Dragons at a Dragon Shrine.
